INDEX

NAMES OF CONTRIBUTORS ARE PRINTED IN SMALL CAPITALS

Adaptations in the Nasal Passages for Sand Burrowing in the Saurian Genus Uma, R. C. STEBBINS, 38

AMADON, D., Specialization and Evolution, 133

Analysis of the Relative Growth Gradients and Changing Form of Growing Organisms: Illustrated by the Tobacco Leaf, O. W. RICHARDS and A. J. KAVANAGH, 385

ANDERSON, E., and L. HUBRICHT, The Histological Basis of a Specific Difference in Leaf Texture, 285

APPLEGATE, V. C., and K. F. LAGLER, Relationship Between the Length and the Weight in the Snapping Turtle Chelydra serpentina Linnaeus, 476

Argynnis callippe in California, Geographical Variation and Racial Structure of, W. HOVANITZ, 400

BALL, G. H., Parasitism and Evolution, 345

BLAIR, A. P., Population Structure in Toads, 563

BOHREN, B. B., M. CONRAD and D. C. WARREN, A Chemical and Histological Study of the Feather Pigments of the Domestic Fowl, 481

BORLAND, J. R., and R. RUGH, Evidences of Cannibalism in the Tadpoles of the Frog Rana pipiens, 282

BOYDEN, A., Serology and Animal Systematics, 234

CAMP, W. H., The Herbarium in Modern Systematics, 322

CHARLES, D. R., and R. H. GOODWIN, An Estimate of the Minimum Number of Genes Differentiating Two Species of Golden-Rod with Respect to Their Morphological Characters, 53

Chromosomes, Uselessness of the Spindle Fibers for Moving the, S. DE T. PIZA, JR., 442.

COHEN, H., M. GORDON and R. F. NIGRELLI, A Hormone Produced Taxonomic Character in Platypoecilus maculatus Diagnostic of Wild P. xiphidium, 569

COLE, L. J., and R. M. SHACKELFORD, White Spotting in the Fox, 289

COLLIAS, N. E., Statistical Analysis of Factors which Make for Success in Initial Encounters Between Hens, 519

CONRAD, M., B. B. BOHREN and D. C. WARREN, A Chemical and Histological Study of the Feather Pigments of the Domestic Fowl, 481

CORNMAN, I., A Basis for Ostensible Reversal of Evolution, 90

CUMLEY, R. W., and M. R. IRWIN, Immunogenetic Studies of Species Relationships, 211

DEMEREC, M., and S. ZAMENHOF, Studies on Induction of Mutations by Chemicals. I. Experiments with Heavy Water, 380

DICKLER, H., White-eyed Mutation in Phormia regina Meigen, 287

DI STEFANO, H. S., Effects of Silver Nitrate on the Pigmentation of Drosophila, 94

Drosophila, Effects of Silver Nitrate on the Pigmentation of, H. S. DI STEFANO, 94; Effects of Single Genes on the Behavior of, J. P. SCOTT, 184; A Factorial Experiment on the Mineral Requirements of a Drosophila Culture, H. KALMUS, 376; Melanogaster, The Effect of Zinc Sulfate Upon the Inbred Population of, D. GREIFF, 426

Ecology, Evolution and Society, A. E. EMERSON, 97

EMERSON, A. E., Ecology, Evolution and Society, 97

Evolution, A Basis for Ostensible Reversal of, I. CORNMAN, 90; Ecology, Evolution and Society, A. E. EMERSON, 97; Specialization, D. AMADON, 133; of the Human Blood Group Factors, A. S. WIENER, 199; Parasitism and, G. H. BALL, 345; On Wheeler's Paper Concerning Evolution and the Nemertean Gorgonorhynchus, E. C. ZIMMERMAN, 373; The Analysis of the Relative Growth Gradients and Changing Form of Growing Organisms: Illustrated by the Tobacco Leaf, O. W. RICHARDS and A. J. KAVANAGH, 385

FLANDERS, S. E., Partial Oosorption as a Possible Cause of Diploid Males in Microbracon hebetor, 479
Fowl, The Linkage of Polydactyly with Multiple Spurs and Duplex Comb in the, F. B. HUTT and C. D. MUELLER, 70; The Inheritance of Egg Production in the Domestic, I. M. LERNER and L. W. TAYLOR, 119; Independent Identical Mutations to Albinism in the Sex Chromosome of the Fowl, F. B. HUTT and C. D. MUELLER, 181; Quantitative Genic-hormone Interactions in the Fowl I. Relative Sensitivity of Five Breeds to an Anterior Pituitary Extract Possessing Both Thyrotropic and Gonadotropic Properties, S. S. MUNRO, I. L. KOSIN and E. L. MACARTNEY, 256; Inheritance of Mottled Earlobes and Stubs in Rhode Island Reds, F. A. HAYS, 471; A Chemical and Histological Study of the Feather Pigments of the Domestic Fowl, B. B. BOHREN, M. CONRAD and D. C. WARREN, 481; Statistical Analysis of Factors which Make for Success in Initial Encounters Between Hens, N. E. COLLIAS, 519
Fox, White Spotting in the, L. J. COLE and R. M. SHACKELFORD, 289
Frog Rana pipiens, Evidences of Cannibalism in the Tadpoles of the, J. R. BORLAND and R. RUGH, 282

GARBER, E., The Rate of Root Elongation in Diploid and Tetraploid Sudan Grass and Rye, 190
Golden-Rod, An Estimate of the Minimum Number of Genes Differentiating Two Species of, with Respect to Their Morphological Characters, D. R. CHARLES and R. H. GOODWIN, 53
GOODWIN, R. H., and D. R. CHARLES, An Estimate of the Minimum Number of Genes Differentiating Two Species of Golden-Rod with Respect to Their Morphological Characters, 53
GORDON, M., H. COHEN and R. F. NIGRELLI, A Hormone Produced Taxonomic Character in Platypoecilus maculatus Diagnostic of Wild P. xiphidium, 569
GREIFF, D., Effect of Zinc Sulfate Upon an Inbred Population of Drosophila melanogaster, 426

Habrobracon, Proof for Multiple Allelism of Sex-Differentiating Factors in, A. B. HORN, 539
HAYS, F. A., Inheritance of Mottled Earlobes and Stubs in Rhode Island Reds, 471
HEIDELBERGER, M., Symposium on Immunology as a Tool in Biological Research: Immunochemical Approaches to Biological Problems, 193
Herbarium in Modern Systematics, W. H. CAMP, 322
Hormone Produced Taxonomic Character in Platypoecilus maculatus Diagnostic of Wild P. xiphidium, M. GORDON, H. COHEN and R. F. NIGRELLI, 569
HORN, A. B., Proof for Multiple Allelism of Sex-Differentiating Factors in Habrobracon, 539
HOVANITZ, W., Geographical Variation and Racial Structure of Argynnis callippe in California, 400
HUBBS, C. L., Reviews and Comments, 79, 173, 274, 365, 463, 551
HUBRICHT, L., and E. ANDERSON, The Histological Basis of a Specific Difference in Leaf Texture, 285
HUTT, F. B., and C. D. MUELLER, The Linkage of Polydactyly with Multiple Spurs and Duplex Comb in the Fowl, 70; Independent Identical Mutations to Albinism in the Sex Chromosomes of the Fowl, 181

Immunology as a Tool in Biological Research: Immunochemical Approaches to Biological Problems, M. HEIDELBERGER, 193
INGER, R. F., Further Notes on Differential Selection of Variant Juvenile Snakes, 87
IRWIN, M. R., and R. W. CUMLEY, Immunogenetic Studies of Species Relationships, 211

KALMUS, H., A Factorial Experiment on the Mineral Requirements of a Drosophila Culture, 376
KAVANAGH, A. J., and O. W. RICHARDS, The Analysis of the Relative Growth Gradients and Changing Form of Growing Organisms: Illustrated by the Tobacco Leaf, 385
KOSIN, I. L., S. S. MUNRO and E. L. MACARTNEY, Quantitative Genic-hormone Interactions in the Fowl

I. Relative Sensitivity of Five Breeds to an Anterior Pituitary Extract Possessing Both Thyrotropic and Gonadotropic Properties, 256

LAGLER, K. F., and V. C. APPLEGATE, Relationship Between the Length and the Weight in the Snapping Turtle Chelydra serpentina Linnaeus, 476

Leaf Texture, The Histological Basis of a Specific Difference in, E. ANDERSON and L. HUBRICHT, 285

LERNER, I. M., and L. W. TAYLOR, The Inheritance of Egg Production in the Domestic Fowl, 119

MACARTNEY, E. L., S. S. MUNRO and I. L. KOSIN, Quantitative Geniehormone Interactions in the Fowl I. Relative Sensitivity of Five Breeds to an Anterior Pituitary Extract Possessing Both Thyrotropic and Gonadotropic Properties, 256

MUELLER, C. D., and F. B. HUTT, The Linkage of Polydactyly with Multiple Spurs and Duplex Comb in the Fowl, 70; Independent Identical Mutations to Albinism in the Sex Chromosome of the Fowl, 181

MULLER, H. J., Edmund B. Wilson —An Appreciation, 5, 142

MUNRO, S. S., I. L. KOSIN and E. L. MACARTNEY, Quantitative Geniehormone Interactions in the Fowl I. Relative Sensitivity of Five Breeds to an Anterior Pituitary Extract Possessing Both Thyrotropic and Gonadotropic Properties, 256

Mutations by Chemicals, Studies on Induction of. I. Experiments with Heavy Water, S. ZAMENHOF and M. DEMEREC, 380

NIGRELLI, R. F., M. GORDON and H. COHEN, A Hormone Produced Taxonomic Character in Platypoecilus maculatus Diagnostic of Wild P. xiphidium, 569

Oosorption, Partial, as a Possible Cause of Diploid Males in Microbracon hebetor, S. E. FLANDERS, 479

PIZA, S. DE T., JR., Uselessness of the Spindle Fibers for Moving the Chromosomes, 442

Polydactyly, The Linkage of, with Multiple Spurs and Duplex Comb in the Fowl, F. B. HUTT and C. D. MUELLER, 70

Reviews and Comments, C. L. HUBBS: Race, Reason & Rubbish, G. DAHLBERG, 79; The Vertebrate Eye and Its Adaptive Radiation, G. L. WALLS, 81; Sex Hormones, Edited by F. C. KOCH and P. E. SMITH, 81; The Crayfishes of Florida, H. H. HOBBS, JR., 82; Studies on the Origin and Early Evolution of Paired Fins and Limbs, W. K. GREGORY and H. C. RAVEN, 83; Adaptive Modifications for Tree-trunk Foraging in Birds, F. RICHARDSON, 84; The Osteology and Myology of the California River Otter, E. M. FISHER, 85; Geographic Variation in Garter Snakes of the Species Thamnophis sirtalis in the Pacific Coast Region of North America, H. S. Fitch, 85; Some Aspects of Evolutionary Theory, G. M. ROBERTSON, 86; Statistical Genetics and Evolution, S. WRIGHT, 86; Systematics and the Origin of Species, E. MAYR, 173; Family Treasures, D. L. WHITNEY, 274; Levels of Integration in Biological and Social Systems, Edited by R. REDFIELD, 275; Distribution and Variation of the Horned Larks of Western North America, W. H. BEHLE, 276; The Genus Mysius and Its Allies in the Hawaiian Islands, R. L. USINGER, E. C. ZIMMERMAN, 277; Evolution The Modern Synthesis, J. HUXLEY, 365; Distribution and Variation of the Hawaiian Tree Snail Achatinella apexfulva Dixon in the Koolau Range, Oahu, d'A. A. WELCH, 369; The Genetics of the Mouse, H. GRUNEBERG, L. R. DICE, 463; Joseph Grinnell's Philosophy of Nature, 466; Chimpanzees A Laboratory Colony, R. T. YERKES, 467; Speaking of Man, M. F. GUYER, 469; Criteria for Vertebrate Subspecies, Species, and Genera, C. M. BOGERT, W. F. BLAIR, E. R. DUNN, E. R. HALL, C. L. HUBBS, E. MAYR, G. G. SIMPSON, A. H. MILLER, 551; Systematics, Cytogenetics and Evolution in Crepis, E. B. BABCOCK, E. MAYR, 555; The Structure and Origin of Species, W. H. CAMP

and C. L. GILLY, 556; The Biotic Provinces of North America, L. R. DICE, 558; Book Notices, 178, 279, 370, 469, 559

RICHARDS, O. W., and A. J. KAVANAGH, The Analysis of the Relative Growth Gradients and Changing Form of Growing Organisms: Illustrated by the Tobacco Leaf, 385

RUGH, R., and J. R. BORLAND, Evidences of Cannibalism in the Tadpoles of the Frog Rana pipiens, 282

SCOTT, J. P., Effects of Single Genes on the Behavior of Drosophila, 184

Serology and Animal Systematics, A. BOYDEN, 234

SHACKELFORD, R. M., and L. J. COLE, White Spotting in the Fox, 289

Snakes, Further Notes on Differential Selection of Variant Juvenile, R. F. INGER, 87

Snapping Turtle Chelydra serpentina Linnaeus, Relationship Between the Length and the Weight in the, K. F. LAGLER and V. C. APPLEGATE, 476

Species Relationships, Immunogenetic Studies of, M. R. IRWIN and R. W. CUMLEY, 211

STEBBINS, R. C., Adaptations in the Nasal Passages for Sand Burrowing in the Saurian Genus Uma, 38

Sudan Grass and Rye, The Rate of Root Elongation in Diploid and Tetraploid, E. GARBER, 190

TAYLOR, L. W., and I. M. LERNER, The Inheritance of Egg Production in the Domestic Fowl, 119

Toads, Population Structure in, A. P. BLAIR, 563

WARREN, D. C., B. B. BOHREN and M. CONRAD, A Chemical and Histological Study of the Feather Pigments of the Domestic Fowl, 481

White-eyed Mutation in Phormia regina Meigen, H. DICKLER, 287

WIENER, A. S., Evolution of the Human Blood Group Factors, 199

Wilson, Edmund B.—An Appreciation, H. J. MULLER, 5, 142

ZAMENHOF, S., and M. DEMEREC, Studies on Induction of Mutations by Chemicals I. Experiments with Heavy Water, 380

ZIMMERMAN, E. C., On Wheeler's Paper Concerning Evolution and the Nemertean Gorgonorhynchus, 373
